

3D viewers for offices and buildings

Let them walk through it before they visit.

We turn your office or building plans into 3D that prospects can walk through on your website or their phone.

The Visedra example office, furnished. In the viewer you can also see it empty, walk through it and step out to the building in its district.

3 Rounds of changes included

12 Months of hosting included

0 Apps to install to view it

WHO IT IS FOR

For owners and brokers of office buildings.

If you own the building

- One presentation of the building that every broker on it can use.
- Show the empty floor furnished, in more than one layout.
- You decide which brand it carries and who shares the link.

If you lease or sell it

- Add it to your marketing proposal to the owner.
- On a tour, walk prospects through two or three layouts on the real floor plan: a test fit they can see.
- Afterwards, send the exact view you discussed so the decision makers see it too.

See your building before you order anything.

If you own the building or hold the leasing mandate, we prepare a free sample of its exterior in 3D, with its surroundings, on a private link. All we need is the address.

[Ask for the sample](#)

HOW IT WORKS

You send the plans. We do the rest.

You don't need to know anything about 3D. We review your material, agree in writing what to show and deliver the viewer ready to share.

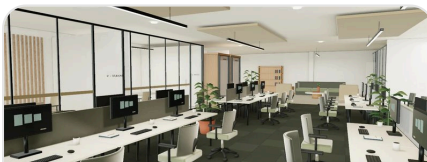

01 You send Plans, photos or the property listing.	02 We agree What to show, price and timing, in writing.	03 We build The 3D, with up to 3 rounds of changes.	04 You share One link for your website, emails and meetings.

Compared with photos, 360 tours and renders

CRITERION	PHOTOS AND PLANS	360 TOUR	RENDERS	3D VIEWER
Shows the real space, as finished	Yes	Yes	No, it is a recreation	No, it is a recreation
The space must exist and be accessible	Yes	Yes, it has to be scanned	No	No, plans are enough
Shows the empty floor furnished	No	With separate editing	Yes, in the chosen views	Yes, with a switch
Several layouts of the same floor	No	No	One image per view	Yes, on the same link
Visitors move wherever they like	No	Yes, point to point	No	Yes

Try it yourself

Three examples made by Visedra. Scan a code with your phone or type the address.

The office in 3D

Empty or furnished, on foot, and the building in its district.

visedra.com/en/offices

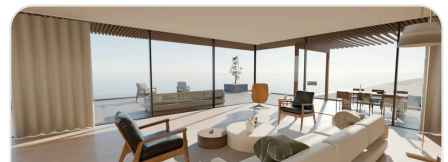

The seafront building

Terraces, a glass tower and the light from morning to night.

visedra.com/en/horizonte

The penthouse in 3D

Living room, kitchen, suite and a pool terrace, from afternoon to dusk.

visedra.com/en/penthouse

What does it cost?

From €149 + VAT. Half when we start and the other half once you approve the first version. With an invoice that shows any tax that applies, and no subscriptions.

How long does it take?

From 24 hours for the simplest projects, once the scope is agreed. Interiors or several floors take longer; the exact date is in the written quote.
